

# Care Recommendations

---

## Nutrition

- **High-Quality Puppy Food:** Feed your Golden Doodle a balanced, high-quality puppy formula that is specifically designed for their size and breed. Look for options rich in protein and essential nutrients to support their growth and development.
- **Regular Feeding Schedule:** Establish a feeding schedule based on your puppy's age and consult your veterinarian for specific portion sizes. Typically, puppies should be fed three to four times a day until about six months of age, after which you can transition to two meals a day.
- **Fresh Water:** Always provide access to clean, fresh water to keep your puppy hydrated.

## Exercise

- **Daily Outings:** Golden Doodles are active dogs that require regular exercise. Engage in daily walks, playtime in the yard, and interactive games. This will help them burn off energy and maintain a healthy weight.
- **Mental Stimulation:** Incorporate puzzle toys and training exercises to stimulate their minds. These activities not only enhance their intelligence but also strengthen your bond with them.

## Training and Socialization

- **Early Training:** Start training your Golden Doodle as soon as you bring them home. Basic commands such as sit, stay, and come are essential. Positive reinforcement methods work best, as they respond well to praise and treats.
- **Socialization:** Expose your puppy to various environments, people, and other animals to promote healthy social behavior. Puppy classes can be an excellent avenue for socialization and foundational training.

## Grooming

- **Regular Brushing:** Golden Doodles have a wavy to curly coat that requires regular grooming to prevent matting. Brush their fur at least 2-3 times a week, and consider professional grooming every 6-8 weeks.
- **Bathing:** Bathe your puppy as needed, typically every 4-6 weeks, using a gentle puppy shampoo. Be sure to dry their ears and coat thoroughly afterward.
- **Dental Care:** Establish a dental care routine early on by brushing their teeth and providing dental chews to help maintain oral health.

## Health Care

- **Veterinary Visits:** Schedule a veterinary checkup shortly after bringing your puppy home. Vaccinations, deworming, and preventive care should be discussed. Regular vet visits are crucial for monitoring your puppy's health.
- **Parasite Prevention:** Discuss options for flea, tick, and heartworm prevention with your veterinarian to keep your puppy protected from harmful parasites.

## Love and Attention

- **Bonding Time:** Golden Doodles thrive on companionship. Spend quality time with your puppy daily through play, training, and cuddling. This strengthens your bond and supports their emotional well-being.
- **Safe Space:** Create a cozy and safe space for your puppy to rest, complete with a comfortable bed and their favorite toys.
